Product specification

The RJ45 data wall outlet from METZ CONNECT impresses with maximum versatility and technical precision. It supports all common network standards - from classic telephony to high-performance 10-Gigabit Ethernet applications. Thanks to Power over Ethernet (PoE) up to 90 watts, IP-based devices such as cameras, access points, or VoIP phones can also be powered via the same cable. Made of high-quality die-cast zinc, the outlet not only offers exceptional durability but also optimal EMC protection. Thanks to the patented, optimized cable entry, the data outlet can be flexibly integrated into almost any installation scenario, and the proven LSA connection technology allows for quick installation - ideal for professional installers.
