

# PCB connectors for the White Goods industry

Engineered for performance and durability

METZ CONNECT manufactures reliable, high-quality connectors for the White Goods industry, ensuring secure, efficient, and long-lasting connections for today's modern appliances and professional equipment.

	Product	Key Features	Series
	Spring clamp terminal blocks and headers	2.5mm to 10.16mm centerlines 0°, 45°, 60°, 90° entry 16 to 28 AWG wire range Solderable or pluggable (1 pc and 2 pc) Open terminal chamber upon delivery No screwdrivers or other tools needed Consistent connection force provided from spring Spring automatically adjusts for different size wires Printing and color options available	SM, SP, SR, ST, SW PM, PR, PT, PW
	SMT and THR push-in single spring clamp terminal blocks	Nominal current 9 A Single wire cable range 16 – 24 AWG Available in 10 different colors Finger push-button Wire connection indicator Test plug socket Compact design Reflow-capable according to JEDEC 20 MSL 1 Tape & reel packaging	SM99S, SR99S
	Screw type terminal blocks and headers	3.5mm to 10.16mm centerlines 0°, 45°, 90° entry 12 to 28 AWG wire range Solderable or pluggable (1 pc and 2 pc) With or without wire protector Printing and color options available	RP, RT, RW PM, PR, PT, PW
	Board-to-board connectors	Pin strip headers and female connectors Standard centerlines: 1.27, 2.00 and 2.54 mm Vertical or horizontal plug direction Single or double row For SMT or THT Dual body stacking headers also available	FM, FR, PM, PR
